NIHAL HAMEED ALHARBI

JUNIOR SOFTWARE DEVELOPER

Jeddah, Saudi Arabia | +966 58 140 8431 | nihalhameed18@gmail.com
nihalalharbi.github.io | github.com/nihalAlharbi

PROFESSIONAL SUMMARY

Computer Science graduate with project-based experience building desktop and web applications using C#, Windows Forms, and ASP.NET Web Forms. Seeking a Junior Software Developer role to apply analytical problem-solving, write maintainable code, and develop practical software solutions.

EDUCATION

Bachelor of Science in Computer Science | Graduated: 2027

King Abdulaziz University, College of Computing and Information Technology

PROJECT EXPERIENCE

Personal Budget Management System | C#, Windows Forms, .NET Framework, CSV

- Developed a desktop application to record expenses, set category budgets, and review spending.
- Delivered 3 Windows Forms screens for expense entry, category budget settings, and spending summaries.
- Organized transaction data in CSV files and presented expense summaries using a table and pie chart.

Hotel Room Booking System | C#, ASP.NET Web Forms, HTML, CSS, JSON

- Built web interfaces for guest registration, room booking, and reservation management.
- Implemented 4 functional areas covering guest registration, room booking, reservation status, and a central dashboard.
- Implemented JSON-based storage to save booking records and display reservations in the management interface.

TECHNICAL & PROFESSIONAL SKILLS

Programming: C#, JavaScript, C++, Python, HTML, CSS

Software development: Object-oriented programming, requirements analysis, UML modeling, data structures, input validation, and modular code organization

Frameworks & tools: Windows Forms, ASP.NET Web Forms, GitHub, Google Colab

Professional skills: Analytical thinking, problem-solving, teamwork, and self-directed learning
